

Economic Development Training Seminar

The Economic Development Committee's (EDC) gives support to GMAC's Smart Edge. Smart Edge is a financial education program aimed at helping people with making more informed personal financial decisions. The seminars covered personal budgets, credit, and share how these items can help you negotiate better when applying for credit or a loan. The seminars also discussed the credit scoring process and helped attendees unlock that mystery. Facilitator Don Ferguson, of GMAC, trained 100BM members, family and friends to be ambassadors for the program. "Several more seminars for the community are planned now that we have trained personnel to facilitate" says Ferguson. [photos click here](#)
